8- The term "Expert system" means:

- 1. Use computers to stay in touch with the office while working at home.
- 2. Multimedia materials with a combination of educational and entertainment content.
- 3. A combination of text with sound, video, animation and graphics.
- 4. Software that enables computers to 'think' like experts.
- 9-Choose the best set of words to complete the blank of the following statement.

"The power of is being used for many purposes, such as analyzing Supreme Court decisions, discovering in health care, pulling stories about competitors from newswires, resolving in production processes and analyzing sequences in the human genetic makeup."

- 1. data mining, patterns, bottlenecks
- 2. AI, prototype, obscurity
- 3. data warehouse, model, difficulty
- 4. cleansed, sample, obscurity

10- The term "Cleansed data" means:

- 1. A process of filtering through large amounts of raw data for useful information.
- 2. Storage method of archiving large amounts of data to make it easy to access.
- 3. Data free from duplicate and erroneous information.
- 4. A computing tool that tries to operate in a way similar to the human brain.

11- is important. It's the original from which compiled programs are generated.

1. Operating system

2. XML

3. Source code

4. GNU

12- Which of the following words is a synonym for the word coarse?

- 1. rough
- 2. smooth
- 3. fine

4. silky

13- Which of the following statements is true?

- 1. Keyboards and mice will soon not be required for using personal computers.
- 2. There have been no improvements in interface design since the development of the GUI.
- 3. Speech recognition is likely to completely replace other input devices.
- 4. Fewer people are using computers because computer functions are becoming integrated into other electronic devices.
